

STEFANIA VECCHI

Education

Employment

2023 – present Science teacher

Montessori secondary school

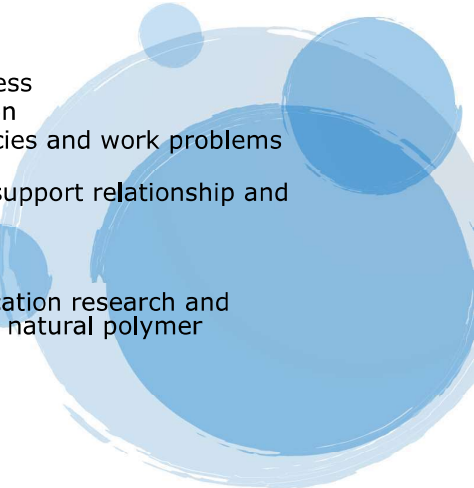

2018 – 2023 Senior technology researcher - Oleochemistry division

Lamberty SpA, Albizzate - VA

- Competitors' patent and products monitoring
- New raw materials and final products scouting
- New products research and development: surfactant synthesis and formula optimization on laboratory scale
- Products pilot scale up and industrialization
- Analytical methods development for product-process quality control

2004 – 2017 Product technologist and Senior researcher – Oleochemistry Carboxymethylcellulose R&D

Lamberty SpA, Albizzate - VA

- Process monitoring
 - Saving time and cost process
 - Team activities organization
 - Management of contingencies and work problems quickly and efficiently
 - Effective communication to support relationship and activities
 - Several patent application
 - Project results sharing
 - New derivatives and application research and development cellulose and natural polymer
- 

OBJECTIVES: I wish to learn and grow in my knowledge and capabilities.

Skills

Great problem solving
Great team working collaboration
Team task organization
Research and development
New applications and several patent discovered and developed
Creativity and curiosity

Hobbies

Athletic
Skiing
Scrapbooking
Playing guitar
Reading
Sport massage

2003 Jul-Dec Junior researcher

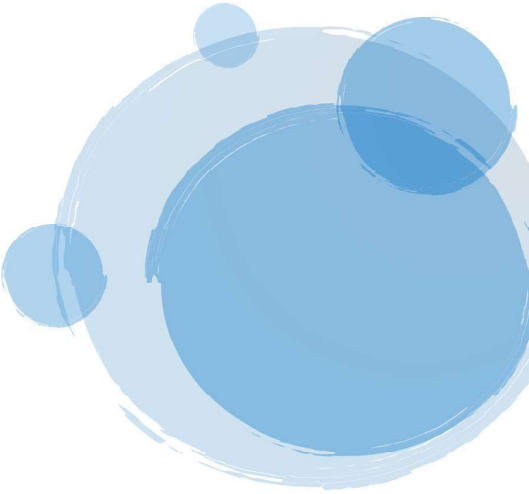

Lamberty SpA, Albizzate - VA
Stage in Carboxymethylcellulose R&D

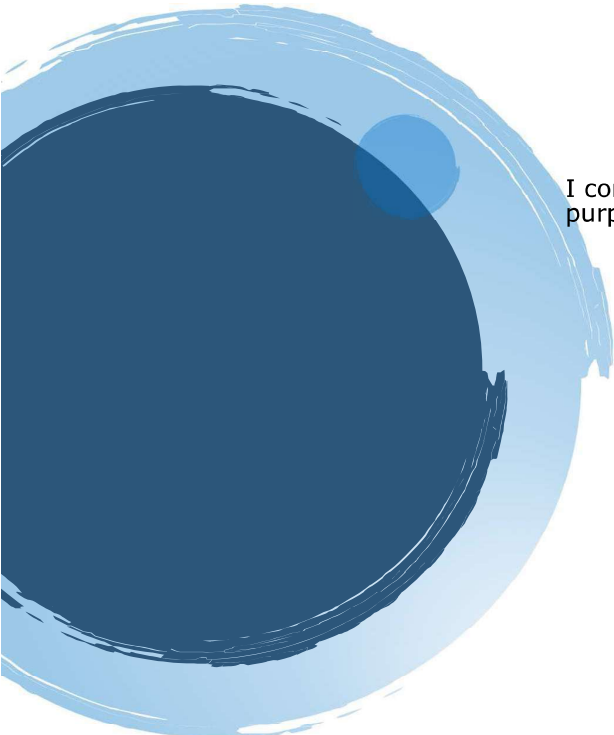

- Characterization of cellulose derivatives Languages
2003

Languages

Italian: mother tongue

English: Intermediate
