SEPTEMBER 2022

EVENTS

We're delighted to be back at face-to-face events and look forward to seeing you!

NORTHERN EUROPE

Managed Services Summit

155 Bishopsgate, London, UK
14 September

Celebrating its 12th year, the Managed Services Summit UK continues its tradition of being the premier managed services event for the UK IT channel. Join us at the Business Leadership Track at 2.20pm where Matt Aldridge will ask 'Is your security engineered to beat social engineering?'

Our researchers have broken down common attack vectors to identify where we're most vulnerable and find out why social engineering is so successful. We'll also explore Forrester's recommendation for the best defence against social engineering tactics like phishing and the case for adopting a multi-tiered cybersecurity strategy.

About us

Webroot, an OpenText company, was the first to harness the cloud and artificial intelligence to stop zero-day threats in real time. Webroot secures businesses and individuals worldwide with threat intelligence and protection for endpoints and networks. In 2019, Webroot and its parent company Carbonite were acquired by OpenText, a global leader in Enterprise Information Management. Together, we are a market leader in cyber resilience, offering total endpoint protection and disaster recovery for any sized business. Discover Smarter Cybersecurity® solutions at webroot.com.
