## *Tombola 2019*

### *Welcome address*

Good afternoon everybody and welcome to our traditional Christmas tombola!

On behalf of the students and the teachers of Alessandro Volta secondary school, I want to thank you all for coming.

As you probably know, this event is organized by the school, together with *SCUOLAFUTURA*, and it is part of a large programme of fundraising activities undertaken by the “Istituto Comprensivo di Acquasparta”.

On the desk you can find a leaflet with detailed information about *SCUOLAFUTURA*, an organization which supports our school in offering the students more educational opportunities, such as the project *An English Friend*.

And now we would like to remind you of a few rules about the game :

- some students will pick the numbers and read them out, but there will also be a big board for those who don't understand English
- selected people from the school, including students and parents, will check the winning cards and write down the names of the winners
- the prizes will be distributed at the end of the game
- and, most important..... please **be quiet** during the game!

Thank you for listening. Enjoy the game and good luck to everyone! And, before we start, let me wish you a Merry Christmas and a Happy New Year!
