SUBJECT: Erasmus+ project application motivation letter: **2023-1-IT01-KA121-VET-000140435**

Dear Mrs. Meatta,

I am forwarding this letter to you as I am strongly interested in participating in the training course on 'Digital for Creativity and Inclusion'.

In the light of my studies and work experience, I believe I have all the necessary and required qualifications for this position. I would be honoured to provide the Institute with my enthusiasm, my professionalism and above all my passion for the whole Erasmus+ sector (education, training, linguistic-cultural exchange). Besides a degree in Foreign Languages and Literature from the University of Perugia, a master's degree in "NEW LANGUAGE LEARNING: MULTIMODAL, FLIPPED LEARNING AND CLIL" at the eCampus Telematic University and subsequent linguistic (Cambridge level C1, CAE_Certificate in Advanced English) and digital (ECDL IT-Security and LIM) certifications, I add to support my candidature my nine years of service as an English language and support teacher, five of which as Erasmus+ contact person and two as Instrumental Function for Internationalisation of our Institute. Thanks to this long experience, I have been able to do training, carry out LTTA, develop every stage of different Erasmus projects key actions (KA1, KA2, KA229) and obtain in the current year, thanks to the support of the DS and the collaboration of the entire internationalisation commission, double accreditation in School and VET programmes.

I am a great believer in the potential of learning in global contexts for all students, including and especially those with disabilities and/or Special Needs, and I have observed how Erasmus experiences can increase autonomy and self-esteem in young people. I am therefore willing to get involved in the organisation and implementation of projects, as well as their replication and dissemination in order to make the whole school and educational community aware of the great opportunities provided by the Erasmus programme.

I am also prepared to work in teams, including international ones, an experience I have already had and which has enabled me to improve my interpersonal and communication skills.

Thank you in advance for considering my application and I remain at your disposal for any further clarification.

Best regards

Fabro, 17/11/2024
